PAUL ROPP

BECAUSE he understands branding, his boutiques make us feel sexy and we can see his logo coming from five different directions...and then some. Oh, and he makes clothes that lead and don't follow, that fit the type that prefers walking naked to wearing suits and because he's everywhere that's decent look...opposite the Four Seasons, down our Seminyak street, along-side streets in the best of Bali. But most of all we like Paul Ropp because he is so unashamedly...Paul Ropp. A wondrous one-off. 🇮🇩
